

ECOTECH GROUP

Eco-friendly & low maintenance

ECOTECH GROUP

SINCE 2010

ECO-FRIENDLY WOOD PLASTIC
COMPOSITE PRODUCTS

ABOUT US

We specialize in synthetic decking, pergolas, screens, and handrails, boasting over 15 years of experience in our industry.

Our team of experienced professionals is dedicated to delivering high-quality craftsmanship and exceptional customer service.

We pride ourselves on using sustainable materials that not only enhance the beauty of your outdoor spaces but also contribute to environmental conservation.

Choose us for your next project and experience the perfect blend of innovation, durability, and style.

PRODUCT ADVANTAGES

CHOOSE YOUR COLOR

The color selection is more varied than ever, offering over 30 options to choose from. These product colors closely resemble the authentic hues of natural wood.

MAINTENANCE CLEANING

If there are any oil stains or dirt on the product's surface, simply rinse it with water. No further daily maintenance is necessary.

COLOR RETENTION RATE

The color retention rates for co-extruded wood-plastic products are impressive: over 90% maintained within five years, more than 70% after ten years, and no less than 65% beyond that period.

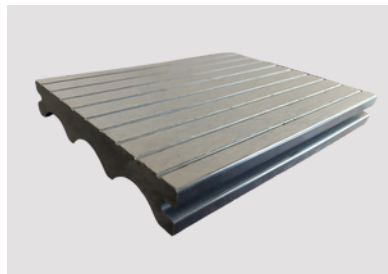

USE SECURITY

The formaldehyde content is close to zero, reaching ENF grade. No wood spines are produced, avoiding harm to the body. Unique antibacterial properties.

ELITE COMPOSITE DECKING

It can endure unpredictable weather and significant temperature fluctuations.
